

## **Class offerings**

### **Intro to Acting**

A fun and supportive introduction to the fundamentals of acting, including imagination, character creation, stage presence, and performance skills.

### **Character Study**

Explore how to build believable characters through script analysis, emotional connection, objectives, and character development techniques.

### **Advanced Acting**

Designed for experienced students ready to deepen their craft through advanced scene work, emotional truth, storytelling, and performance techniques.

### **Scene Study**

Students work on scripted scenes while developing listening skills, character relationships, blocking, and authentic performance choices.

### **Auditioning & Self-Tape Technique**

Learn how to confidently prepare for auditions, create professional self-tapes, interpret sides, and make strong first impressions.

### **School Workshops**

Interactive arts-based workshops designed for schools, community groups, and organizations, focusing on creativity, confidence-building, communication, and performance skills.

### **Private Coaching**

One-on-one personalized coaching tailored to the student's goals, including audition preparation, acting technique, character development, self-tapes, and career guidance.

### **Improv & Comedy**

Learn the art of thinking on your feet through fun theatre games, comedy exercises, character creation, and collaborative storytelling. Students build confidence, creativity, listening skills, and comedic timing while having a blast.
